

Friction Disc Installation Guide

Step 1

Always ensure that the bellhousing is throughly cleaned before fitting a new clutch

Step 3

Slide the friction disc onto the input shaft

Step 5

Ensure all excess grease is removed from both sides of the spline hub

Step 2

Apply only the EXEDY supplied grease to the hub splines on the friction disc

Wipe away any excess grease

Step 6

Lightly lubricate the input shaft, quill and clutch release bearing fork with EXEDY supplied grease
