

The procedure for fitting a replacement ring mechanism to a Pull Type Clutch Cover

Part Ref: RING

The part ref 'RING' is made up of two components; Wedge collar (1) and a Wire ring (2). These replacement parts will fit all pull type clutch covers, apart from the Mitsubishi EVO IV - X.

Fitting Procedure

Place the Wedge collar (1) over the centre ring.

Press down.

Turn the cover over and place the wire ring around the retaining clips.

Ensure that the wire ring is seated correctly.

Fitting a Replacement Ring Mechanism

EXEDY Clutch Technical Information – Ref: 0010

Part Ref: RING_W

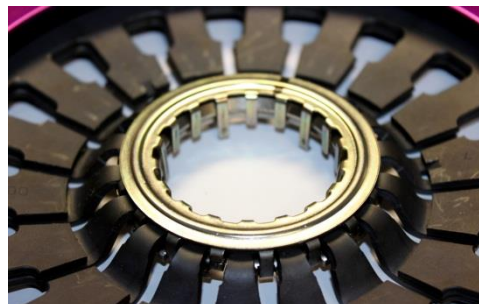

The part ref 'RING_W' is made up of three components; Wedge collar (1), Wire ring (2) and two Wave spring (3). These replacement parts fit the Mitsubishi EVO IV - X.

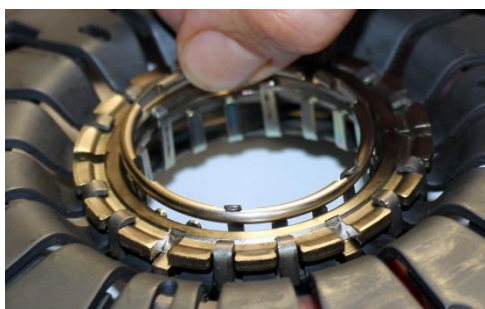

Fitting Procedure

Place the Wave spring (3) over the centre ring.

Place the Wedge collar (1) over the Wave spring (3) and press down.

Turn the cover over and place the wire ring around the retaining clips.

Ensure that the wire ring is seated correctly.
